

Dear Colleagues,

I am the principal investigator of the ERC Project: “A Novel Approach to New Family-Forms, Assisted Reproductive Technologies and Transnationalism. A multi-sited ethnography: Spain, Denmark, Canada and Israel” at the National Research Council (CSIC) in Madrid, Spain.

<https://cordis.europa.eu/project/id/101097431>

I am looking for one post-doctoral researcher (a PhD candidate might also be considered) who will be responsible for conducting an ethnography in Copenhagen (Denmark) for a maximum of 3.5 years. The position will be based in Madrid at the CSIC however the candidate will conduct fieldwork in Copenhagen. Therefore the candidate should be a native speaker of Danish or be proficient in Danish language. If you are interested please read the information below, and if you have any questions, please contact me at: ana.bravo@cchs.csic.es

Prof. Ana Bravo-Moreno (PhD)

Research responsibilities:

- To be part of the ERC project “REPRO-SCAPES” where you will be responsible for conducting an ethnography.
- To write a literature review concerning the country where you conduct fieldwork.
- To carry out interviews with at least 75 families.
- To conduct at least 25 semi-structured interviews with clinicians from major ART clinics and key NGOs representatives.
- To recruit subjects using purposive sampling, the request for participants will be distributed through associations, relevant internet websites, professional and leisure networks, ART clinics, as well as snowballing.
- To conduct virtual research following links within and through Europe.
- To plan the single-site ethnography, discuss and confirm interview schedule, pilot interviews with families and representative clinics and NGOs.
- To develop coding profiles and refine them, these activities will run through the project and will shape planning data collection and analysis.
- To write a fieldwork diary and use other key sources of ethnographic data that are performed in natural settings and reflect the reality of participants’ life experiences.
- To analyse the data.
- To publish 2 research articles per year, some co-authored with team members and a chapter in one edited book that will comply with the Open Access regulations that EU projects must follow, and will have DOI and ISBN registration numbers.
- To present findings in at least one international conference per year.
- To collaborate with other researchers in our team in accordance with the overall research plan.

Requirements for the position:

- A doctoral degree
- Background in social anthropology or related disciplines in social sciences.

- The candidate should be proficient in the local language, being his/her mother tongue or bilingual.
- The candidate will be expected to speak and publish in English, therefore documented proficiency in English is required.
- Documented experience in publishing in English in academic journals (appropriate to career stage).
- Demonstrated experience in ethnography and qualitative research methods.
- Ability to work independently and as a member of a research team.
- Only applicants whose research interests and previous research work could contribute to the research team and the project as a whole will be considered for this position.

Conditions

The appointment is for a maximum of 3.5 years, full-time, in accordance with the European Commission regulations, the Spanish National Research Council.

How to apply

The application must be submitted in English to ana.bravo@cchs.csic.es till the 10th of September, 2024 and include:

1. A brief CV and copy of the PhD degree.
2. A list of publications (including DOI, ISBN or ISSN numbers).
3. The applicant's qualifications and competence to conduct the project.
